

Lifting platform for LC 80 trolley washer disinfectors

Pit...Stop!

*...easy trolley loading
for pitless solutions*

- + Easy installation
- + Ergonomy
- + Safety

no trolley handling on ramps

Lifting platform - for LC 80 trolley washer disinfectors

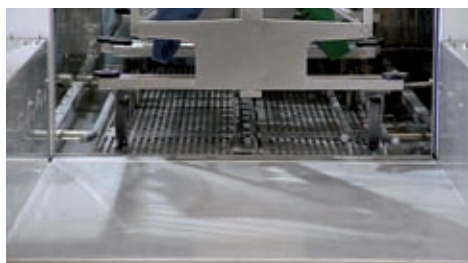

The need for a deep pit has always been a strong constraint for the installation of a trolley washer. So far it has been a problem especially in refurbishment projects of existing CSSDs.

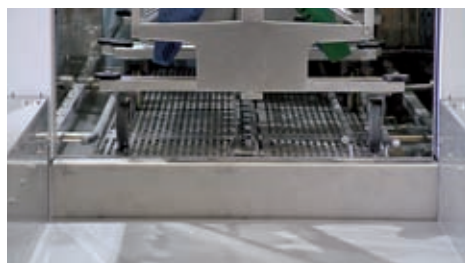

Steelco lifting platform assures the **same ergonomics and operator safety** as a pit installed washer disinfector but... **without the need of a pit**. Moreover this system avoids the risk connected to the handling of a **heavy loaded washing trolley** on inclined loading ramps.

Characteristics

- Frame and external panels made of AISI 304 stainless steel
- Motorized lifting movement with operator safety devices.

Lifted platform

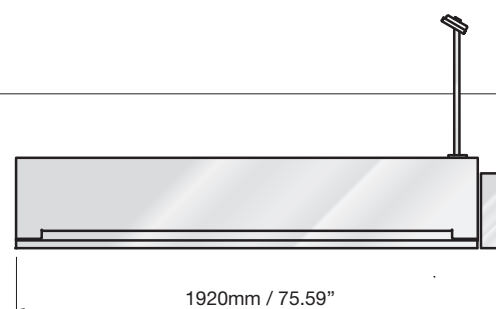

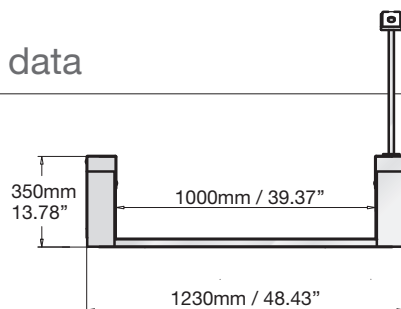

Easy operation

Lifting platform technical data

Lifting movement
up to 180 mm (7.09")

Max load capacity
250 Kg (550lbs)
